

## Using the 'Dingbat' fonts that are built into The Logo Creator:

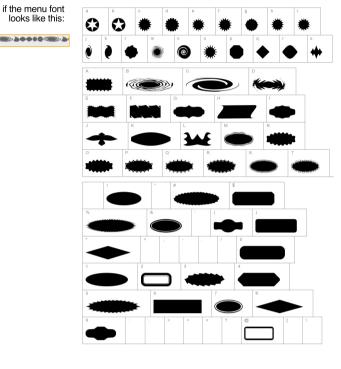

There are 3 built in fonts. Select your text, then pull down the font menu. You'll find the keys to the fonts below

if the menu font looks like this: \*\*\*\P&==0+\*&

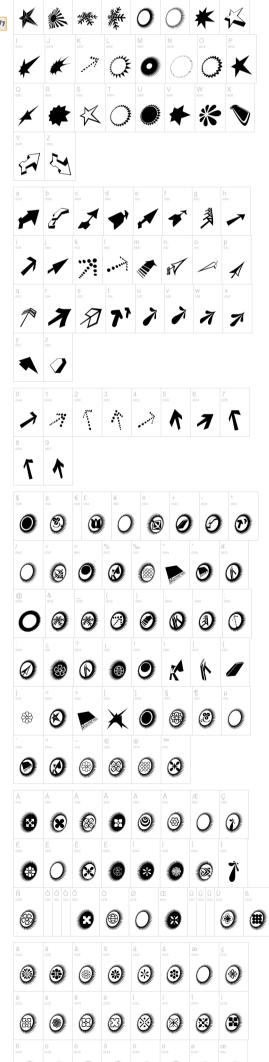

@>>++\*O@>>

带入以 多名尼尔伊名熊河7

if the menu font looks like this:

**Note:** You can use your OWN dingbat fonts too! search the web for "dingbat fonts" and install them onto your computer! These new fonts will show up in the 2nd pull down menu.
